Invitation

Dear friends and colleagues,
we are happy to announce that the 10th AME National Meeting – 5th Joint Meeting with AACE will be held in Naples from 12 to 14 November 2010. It will certainly be a great cultural and scientific event and a further opportunity to confront with many foreign colleagues. Main topics will be Oncologic Endocrinology, Endocrine-Metabolic Syndrome, Bone Metabolism, Transition Endocrinology, Nephro-Endocrinology. All sessions will be interactive and participants will be involved in the discussion of currently handled clinical cases. The Meeting is intended as a major update of the recently acquired data on prevention, diagnosis and management of all endocrine and metabolic diseases. We feel confident that the Naples Meeting will even more strengthen friendship and collaboration between endocrinologists and other specialists, aiming at a closer interaction of all scientific societies of the endocrine-metabolic area. The Ame President and the Chair of the Local Organizing Committee look forward to meeting you all in Naples to share another great occasion of human, cultural and professional growth.

*Cari amici e colleghi,
siamo lieti di annunciare che dal 12 al 14 Novembre 2010 si terrà a Napoli il 10° Congresso Nazionale AME, 5° Joint Meeting con l'AACE. Anche l'evento di Napoli, come i precedenti congressi, sarà sicuramente un momento di grande impatto culturale e di confronto scientifico per tutti gli endocrinologi clinici grazie anche alla opportunità di confrontarsi con molti colleghi stranieri. L'endocrinologia oncologica, la sindrome endocrino-metabolica, il metabolismo osseo, l'endocrinologia della transizione, la nefro-endocrinologia sono solo alcuni dei temi selezionati. Le sessioni saranno tutte interattive e prevederanno molti casi clinici riguardanti la pratica professionale per coinvolgere attivamente tutti i partecipanti. Sarà comunque assicurato l'aggiornamento sulle più recenti acquisizioni in tema di prevenzione, diagnosi e terapia di tutte le patologie endocrino-metaboliche. Il congresso di Napoli siamo certi servirà a rafforzare ancora di più i rapporti di amicizia ed interazione tra gli endocrinologi e gli altri specialisti, puntando ad una sempre più fattiva aggregazione di tutte le società scientifiche del settore endocrino-metabolico. In qualità di Presidente AME e di Presidente del Comitato Organizzatore Locale diamo quindi appuntamento a tutti voi a Napoli per vivere, tutti insieme, una grande occasione di ulteriore crescita umana, culturale e professionale.*
